

display not right
should be like this, (make the progress bar to same as background or transparent)

Solution:

You removed the class showAfterUpload in that div. Please add it again in that div beside class showprogressbar

move that to the center and make it red and after the Rubbish bin, pls have an extra space

Solution:

You removed the class showAfterUpload in that div. Please add it again in that div beside class showprogressbar because the CSS or style for that was based on the showAfterUpload class.
