

# Thinking about getting glassy in the kitchen?

## OzzieSplash has Top 10 reasons to install a Glass or Mirror Splashback...

*Glass is glamorous, versatile,  
and timeless. So, it is no  
wonder why interior designers  
continue to feature Glass and  
Mirror splashbacks.*

### 1. Fuss-free Installation

Once you have decided you want a Glass or Mirror splashback, installation is a breeze. The Glass or Mirror is provided in one or more panels with pre-drilled holes, it is simply secured to the wall with a bonding agent. That means no mess!

### 2. Long Lasting Glass and Mirror Splashback

Glass can stand the test of time. It is ideal for kitchens or butlers' pantries. Since splashbacks are made from toughened Glass, they can stand up against scratches, wear and tear, food stains and spills and knocks.

### 3. Glam and Glossy

There is nothing quite like the shine and sheen of a glossy Glass or Mirror splashback. Its reflective surface opens the space, adds a touch of luxury and splashes light around the room year-round.

### 4. A Splashback in Every Colour

To create a custom kitchen that truly reflects

you, the right colour palette is crucial. Luckily, glass splashbacks come in a rainbow of colours and shades – vibrant blues and reds, pink, daring black, sparkling white, gorgeous green – and any other colour you can imagine.

### 5. Added Extras

You can take your Glass or Mirror splashback higher in the style stakes with special features.

LED lights, or metallic paint options to create the custom kitchen of your dreams.

### 6. Stands the Heat

Glass and Mirror splashbacks can stand the heat, and so belong in the kitchen. That means you can cook up a storm without worrying about warping, blackening, fading, or cracking.

### 7. Easy to Change

After a few years, you may decide to give your kitchen, or entire home a little makeover. The splashback may be the easiest thing to

replace. Simply change for shiny new Glass or Mirror panels and the entire space will be transformed.

### 8. Easy to Clean

Cleaning up in the kitchen is one of those loathed chores. But a Glass or Mirror splashback will save you time, as it is incredibly easy to keep clean. Simply spray, wipe, and move on to the next job.

### 9. Better for Your Health

Bacteria breeds in spaces such as the kitchen and bathroom, particularly on tile grout and in cracks. Since Glass and Mirror splashbacks are shiny, slippery surfaces with no grout, keeping bacteria at bay is a cinch.

### 10. Timeless

Whatever colour or design you choose for your Glass or Mirror splashback; it is unlikely to date any time soon. Glass and Mirror Splashbacks are timeless, forever contemporary and the perfect complement to your cooking space.
